Department of English organized the event ‘**TABOO**’ on 03/11/2023 through the literary club ‘Eunoia’. Students participated with their teams

and they performed well. They are provided with opportunities to speak in front of the audience with the given object or topic. This event helped students to develop their ability to speak in English. All students were participated in this event and spoke without any prior preparation. Also this event helped students to get rid from the stage fear as well. It enhanced the ability of students to develop their fluency in English. When the students started to speak in English without any hesitation, there their language gets developed. So focusing in the good communication skills for students, this event was conducted in order to enhance their language.

Thinkers' Association organized the first Event on “**THINK AND REPAIR**” on 02.11.2023. Students from various departments have participated in the event.” THINK AND REPAIR” is an engaging and stimulating activity that challenges individuals to identify and

rectify problems. It helps them develop a proactive mindset towards troubleshooting and provides opportunities for growth and learning. The activity typically begins by presenting a scenario or a specific problem that needs attention. Participants are encouraged to carefully observe and understand the details of the situation, identifying any errors, conflicts, or areas that need improvement. This may involve examining various perspectives, gathering information, and considering different possibilities. Next, participants are required to think critically about the identified problems and develop effective solutions or repairs to address them. This step involves brain storming, evaluating potential options, and selecting the best.
